

Talks

- PureScript (*Regensburg Haskell Meetup 2015*) (*slides*)
- Dependently Typed Heaps (*Haskell in Leipzig 2016*) (*slides*)
- Automatic Differentiation in Haskell and Applications to Neural Networks (*Regensburg Haskell Meetup 2016*) (*GitHub*)
- Neural Nets with Automatic Differentiation (*Haskell eXchange 2016*) (*slides*)
- Protop - Dependent Types through Topoi (*Haskell eXchange 2017*) (*slides*)
- From a Mathematical Paper to Efficient Code (*Department of Computer Science of the University of Illinois at Urbana-Champaign*) (*slides*)
- Incentives in Cardano (*Blockchain Mania 2018*) (*slides*)
- Incentives in Cardano (*Symphony Of Blockchains - London Kick off 2018*) (*slides*)
- Cardano - The Secret of Success of one of the Leading Cryptocurrencies (*Distribute 2018 Keynote*) (*slides*)
- protop - topos programming (*Regensburg Haskell Meetup 2018*) (*slides*)
- Authenticated Data Structures, Generically, in Haskell (*Haskell eXchange 2018*) (*slides*)
